## Laboratory Readiness Assignment: General Safety

To familiarize yourself with the safety equipment and potential hazards in your own laboratory, use the following space below to draw a diagram the lab space, indicating the following:

- Fire extinguisher
- Safety shower/eye wash station
- First aid kit
- Chemical storage area
- Locations of Personal Protective Equipment (PPE), such as safety glasses, face shields, lab coats, gloves, etc.
- Spill kit
- All exits and evacuation procedures in case of fire or emergency
- Material Safety Data Sheets (MSDS)
- Obvious tripping hazards
- Areas with other specific safety concerns
